

# Media Conversions

## Media Conversions & Duplications

Streamlining media into a standardized format is an efficient way to duplicate and disseminate pre-trial information. We can transfer camcorder tapes to DVD and micro cassettes to CD so you can view client tapes without limits on in-house playback capabilities. There is no need to allow tapes, originally shot with older technology, to limit the quality of your presentation.

- CD, VCD, DVD
- VHS, SVHS, VHS-C videotape
- Mini/Micro/Standard Audio Cassette
- Hi8, 8mm, Digital8, MiniDV, DVCAM
- Floppy Disk
- Reel to Reel Film
- Slides, Negatives
- Smart Cards, Memory Sticks
- Audio Formats: FTP Gold, AIFF, WAV, MP3
- Video Formats: PAL, SECAM, NTSC

Our high-speed duplicator prints full-color professional graphics onto every CD/DVD. No more stick-on labels.
